### Story Behind the Curve

Describe trend in indicator data; identify causes and forces at work behind current results

### Partners

Identify agencies, organizations, and individuals that can contribute to better results; describe their current and potential roles

### What Works

Identify best and promising practices and describe what can be done that is no-cost or low cost in addition to things that cost money to improve results

### Strategy

Describe what can be done by individuals, communities, agencies, and larger groups or systems to actually turn the curve on results; prioritize proposed strategies
