

FWSN Advisory Board Evaluation Sub-Committee
Meeting #2 Agenda
January 19, 2007

CSSD Planning (Peter Kochol, Brian Hill, and John Chapman, CSSD)

We will review the "CARE" respite model and current measurement tools (please bring your own copies of the two attachments Brian sent on Jan. 18)

We can discuss how that may or may not need to be modified (and discuss timeframe)

As CSSD begins to draft the Family Support Center contracts, should similar or different measures be used?

John is beginning analyses of the "highest risk" vs. other FSWNs using existing CSSD data, in order to help inform programming and screening

DCF Planning

PACE Center

STEP

Who at DCF will be overseeing the contract language for these two programs?

How can the sub-committee assist with measurement/evaluation?

Contracting for an Independent Evaluation

Will the evaluation that goes out to bid cover the CSSD and DCF programs?

Suggestions about the process

Further Discussions related to:

Systemic Long-Term Evaluation (legislative language needed?)

Case Planning (information-sharing)
