

## BENEFITS IN THE SHARED SAVINGS CALCULATION FOR THE MQISSP

July 8, 2015

Draft and Subject to Revision

In order to determine the scope and coverage of the State of Connecticut's Medicaid Quality Improvement and Shared Savings Program (MQISSP), decisions are needed on the benefits to include in the shared savings calculation. This is needed for the development of a historical claims base which will be used to develop cost benchmarks. This document lists potential benefits to track decisions made as to their inclusion; however, this list is not exhaustive and may need to be updated further to include increased granularity of the benefits included in the shared savings calculation.

Listed below are benefits that have been identified for potential inclusion or exclusion for the MQISSP. These categories of service are currently used in the Connecticut Medicaid fee-for-service claims data.

Benefit	Included	How to Define in the Data
Clinic Services	Yes	
Dental	Yes	
Durable Medical Equipment	Yes	
Federally Qualified Health Center (Dental, Medical, Mental Health)	Yes	
Home Health Services	Yes	
Hospital Inpatient	Yes	
Hospital Outpatient (Emergent, Non Emergent, All Other)	Yes	
Independent Lab, Radiology	Yes	
Other Practitioner	Yes	
Pharmacy	Yes	
Physician Services — All	Yes	
Vision	Yes	
All Other (Would include Hospice, LTSS, NEMT, etc.)	No
