- Community Health Services

NCQA DEFINES CARE COORDINATION

- Identifying, Tracking, Sharing Information & Coordinating Care
 - Hospital Admissions, ED Visits
 - Post Discharge Follow -up
 - Care Transition From Pediatrics to Adult Care
 - Collaboration with Specialists, BHC, & Maternal Health
 - Initiate Referrals and Coordinating Follow-up

- Providing Wellness Care
 - Routine Wellness Visits
 - Immunizations
 - Chronic Disease Management

HOW ARE PERSON-CENTERED MEDICAL HOMES PROVIDING CARE COORDINATION INDEPENDENTLY FOR PATIENTS

- Assign designated professionals to assume the role of care coordination for entire practice
- Utilize a team concept that supports a division of care coordination duties among clinical and non-clinical staff
- Facilitate Care Coordination efforts by referring to and working collaboratively with many of the following organizations:
 - CT Medical Home Initiative (Community Practice Transformation Program)
 - ASO Intensive Care Mgt, Specialized Care Mgt, Community Support Services
 - Nurturing Families Network
 - Birth to Three
 - CT Dental Health Partnership
 - CT Behavioral Health Partnership
 - Department of Public Health
 - United Way of CT 2-1-1
 - Department of Developmental Services
 - Community ACCESS Agencies
 - ETC

HOW PRACTICES ARE GUIDED IN EHR SELECTION AND UPGRADE

- Referrals to e-Health CT
- Provide information on how to apply for CMS Medicaid EHR Incentive Payment Program
- Receive instruction and support related to what are the necessities that EMR's & Practice Management Systems require to meet NCQA requirements
 - Built-in patient registry for quality measure reporting to evaluate disease outcomes
 - Automatically generated reminders for follow-up
 - Designed to contain triggers for automatic pt selection for protocol compliance tracking
 - Ability to interoperate at point of care
 - Allows for customization logic for patient selection, request clinical events and actionable steps for non-compliance
 - Identify patient population automatically based on patient-centric criteria
 - Query capability of .EHR (either automated reporting or having vendor map to create reports)
 - Contain intelligence to catch human data entry errors (example: typo's, spelling errors)
 - Able to generate queries and then proceed with outreach actions to serve population identified
 - Has disease-specific conditions loaded in registry or ability to customize & create own registries

PCMH Recruitment Status

- **Total Adjusted Number of CMAP Potential PCMH or Glide Path Practices & Clinics is 242:**
 - ✓ 213 Physician Practices
