

## **CCC CONFERENCE CALL--MARCH 27, 2013**

### **Complex Care Committee Conference Call to discuss Duals Demonstration Application**

Jill Benson, Bill Halsey, Claudio Gualtiere, Quincy Abbott, Matt Katz, Meg Morelli, Julia Gelgauda, Marie Smith, Molly Gavin, Jen Hutchinson, Carol Trapp, Nancy Guerino, Tracy Wodatch, Maureen McCarthy, Molly Gavin, Olivia Puckett, Margaret Murphy

Jill discussed how that many people in mental health see their case managers as primary. State has preference for conflict free care management. Need specificity re nature of care in behavioral health sector (pg 4--care management document). Sheila said the committee was explicit that preference was for community based providers as Lead Agency, with preference to non-institutional providers. This is not referenced in rewrite.

Matt said that Ob-Gyn should be listed under "primary care" since many women rely on ob-gyn as primary care M.D., especially for younger women. (pg. 6 of grid in operating plan)

Meg pointed out that individuals will choose a LCM agency and an individual. Maureen McCarthy and Molly Gavin clarified that LPNs are not listed as care managers, but can be extenders.

Sheila asked when budget will be ready, and would like to get it scheduled for next week.

Claudio asked about letters to DSS, and would like to comment on final version. Bill Halsey said that edits will be made with final document out by close of day Monday, April 1. Also send specific instructions about letter of support.

Sheila is to ask Medicaid Council about letter of support.
