The following is intended to provide legislative members of the State Bond Commission (SBC) with additional information and analysis of the items on the agenda. We have reviewed the items and provided additional information, comments or questions where it would be helpful.

I. Summary

FY 14 General Obligation Bonds

<table>
<thead>
<tr>
<th>Allocations</th>
<th>FY 14 $</th>
<th>FY 13 $</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 9 Agenda</td>
<td>229,271,475</td>
<td>394,920,084</td>
</tr>
<tr>
<td>Prior Allocations</td>
<td>505,228,095</td>
<td>544,543,140</td>
</tr>
<tr>
<td>TOTAL</td>
<td>734,499,570</td>
<td>939,463,224</td>
</tr>
</tbody>
</table>

1 The figures do not include reallocations.

FY 14 Transportation Fund Bonds

</tr>
</thead>
<tbody>
<tr>
<td>January 9 Agenda</td>
<td>0</td>
<td>165,250,000</td>
</tr>
<tr>
<td>Prior Allocations</td>
<td>660,405,412</td>
<td>502,944,000</td>
</tr>
<tr>
<td>TOTAL</td>
<td>660,405,412</td>
<td>668,194,000</td>
</tr>
</tbody>
</table>

Special note on job creation/retention estimates in the SBC agenda:

The Office of Policy and Management has provided an estimate for the number of jobs created or retained for each agenda item. The figures are based on the assumption that for every $1 million of directly expended project construction costs, a total of 21 jobs are created or retained. Of the 21 job total, 9.4 are direct jobs and 11.6 are supplier jobs.
II. Agenda Items

**Items #1 & #4** Office of Policy and Management: Information Technology Capital Investment Program (a total of $23,866,394 in new General Obligation bonds)

The table below shows the amount that each agency will receive:

<table>

</tr>
</tbody>
</table>

The funds will be used for the following purposes:

1. **Department of Social Services (DSS)** – Second year of funding to replace the existing, 24-year-old Eligibility Management System. This project modernizes several agency processes, including client access, document scanning, workflow management, and call center services.

2. **Department of Energy and Environmental Protection (DEEP)** – Second year of funding for various projects, including: 1) an online case management system for agency licensing, permitting, and registration of activities; 2) the creation of a centralized electronic warehouse for all DEEP data; and 3) replacement of agency telephone system.

3. **Department of Administrative Services (DAS)** – Replacement of agency telephone system. The new system is anticipated to be more resilient in disaster situations, and will include new features, such as video conferencing and concurrent document editing.

4. **Board of Regents – Charter Oak State College (BOR)** – Development of CT Academy, which will provide online academic training and assessment.

5. **Department of Public Health (DPH)** - Replacement and enhancement of the state’s Sexually Transmitted Diseases database.

**Background:** The Information Technology Capital Investment Program is a five-year plan to update and consolidate the state’s information technology (IT) infrastructure. Currently, state agencies use a variety of decentralized IT systems that are generally incompatible and outdated, which prevents the agencies from communicating efficiently and effectively with other agencies. The table below summarizes projected expenditures for the plan.
### Projected IT Capital Investment Program Expenditures

**Item #2** Office of Policy and Management (OPM): Grants-in-aid to private, nonprofit health and human service organizations ($20,000,000 in new General Obligation bonds)

The funds will be used for a new program that provides grants-in-aid to private, nonprofit health and human service organizations for: (1) facility alterations, renovation, improvements, additions, new construction and land purchases associated with new construction or additions; (2) health, safety and Americans with Disabilities Act (ADA) projects; (3) energy conservation improvements or projects; (4) information technology systems, including encryption or client confidentiality systems; (5) technology that promotes client independence, (6) vehicle purchasing, (7) acquisition and upgrades to electronic health or medical records and other health information technology systems, and (8) converting use of property to address mutually agreed to service needs. The program is intended to expedite service delivery and to address health, safety and accessibility issues with respect to health and human services provided by nonprofit providers.

Grant awards will be generally limited to no more than $1.0 million for any project or nonprofit provider per year, with a $25,000 minimum cost per project. Grants typically will not exceed 25% of the applicant’s annual budget for health and human services. The Evaluation Committee or OPM Secretary, in consultation with applicant, may modify the amount requested in approving awards. Priority will be given to
organizations that deliver services under one or more contracts or agreements with and funding from one of more State agencies.

A total of 177 organizations have submitted applications for funding under this program. The list is available at the following website: http://www.ct.gov/opm/lib/opm/List_of_Applicant%27s_FY_14_12-16-13.pdf

Questions:
   1. Has OPM chosen any organizations to receive grant-in-aid awards yet?
   2. How long does OPM expect it will take to make all of the awards in the first round of funding?

Item #3 Office of Policy and Management: Grants-in-aid to municipalities for municipal purposes and projects ($56,429,907 in new General Obligation bonds)

Please see Appendix A for a town-by-town list of grant-in-aid amounts. Funding is distributed to municipalities based on a portion of the payment each municipality received in FY 13 from the Municipal Revenue Sharing Account (MRSA). PA 13-247 requires these funds to be expended for the same purposes for which Town Aid Road grants may be used. However, PA 13-247 also allows towns to apply for a waiver from this requirement, and use these funds (and Town Aid Road grants) for other capital purposes. Towns were informed of this waiver in September, and had until November 15 to submit the waiver to OPM. Nine municipalities requested and were granted this waiver.

Item #5 State Department of Education (SDE): Grants-in-aid for school districts to expand the availability of high-quality school models and to implement common core standards ($22,619,148 in new General Obligation bonds)

The funds will be used for grants-in-aid to various school districts to purchase computers, tablets and other electronic devices in order to meet the requirements of Common Core. All capital purchases meet the Smarter Balanced Technology Strategy Framework and System Requirements Specifications to ensure that local districts are test-ready for the 2014-2015 school year.

During the 2014-2015 school year Connecticut will make the transition to the Smarter Balanced assessment, which is a more comprehensive assessment that will replace the CMT and CAPT assessments. Smarter Balanced assessments include extended response and technology-enhanced items, as well as performance tasks that allow students to demonstrate critical-thinking and problem-solving skills. SDE is supporting the implementation of Common Core-aligned assessments by sharing the costs for the purchase of: (1) new computer devices, (2) inter-school bandwidth associated hardware
devices and cabling, and (3) inter-district bandwidth associated hardware devices and/or vendor connectivity solutions between school districts and central district connected facilities.

Please see Appendix B for a list of the equipment that will be purchased with this allocation.

**Item #6** Department of Administrative Services: Windham: Roof replacement for State Library facilities in Rocky Hill and Middletown ($144,800 in new General Obligation bonds)

The funds will be used to replace roofs at: (1) the Middletown Library Service Center, which was constructed in 1963 and (2) the Library for the Blind & Physically Handicapped in Rocky Hill, which was also constructed in the 1960’s. The roofs are being replaced because of interior leaks and because asbestos was found in roof samples. Both roofs are flat and have not been replaced before. The replacement roofs will be made of EPDM¹ (rubber). The Middletown roof is estimated to cost $361,438 and the Rocky Hill roof is estimated to cost $764,657.

**Item #7** Department of Emergency Services and Public Protection: Roof replacement at the Police Academy in Meriden ($435,000 in new General Obligation bonds)

The funds will be used to design a replacement roof for the State Police Academy in Meriden, which was constructed in 1971. The design will also include a new chimney with flashing and masonry repairs to the parapets on the building. The total project cost is estimated to be $2.9 million, including design, construction management, and contingency. The project is anticipated to be complete by mid-2015.

**Item #8** Department of Emergency Services and Public Protection (DESPP): Restacking plan for DESPP headquarters building in Middletown ($130,000 in new General Obligation bonds)

The funds will be used to redesign the interior of two floors of office space at DESPP’s Middletown headquarters. The work is necessary because the agency consolidations that created DESPP caused personnel movements that altered the spatial needs at the Middletown building. The total project cost is estimated to be $1 million, including design, construction management, and contingency. The project is expected to be complete by 2015.

---

¹ Ethylene-Propylene-Diene-Monomer
Questions: Will any DESPP facilities will be closed or downsized when the project is completed?

**Item #9** Department of Mental Health and Addiction Services: Underground fuel tank replacement at Connecticut Valley Hospital in Middletown ($783,205 in new General Obligation bonds)

This funding will be used to replace three underground fuel tanks with above-ground tanks on the campus of Connecticut Valley Hospital in Middletown. The units to be replaced are at the gas station, processing center, and Battell Hall.

**Item #10** State Department of Education: Improvements at vocational technical high schools ($400,000 in new General Obligation bonds)

Of the $0.4 million total, $0.3 million will be used for installation of air conditioning units in the main distribution frame and intermediate distribution frame rooms and closets in the schools listed in the table below. The air conditioning is needed in order to regulate the temperatures within the main distribution frame and intermediate distribution frame rooms, which house critical networking equipment. It is not anticipated that the work or repairs will result in any efficiency savings. The remaining $0.1 million will be expended on various agency administered repairs.

### Air Conditioning Projects at Vocational Technical High Schools

<table>

---

2 A main distribution frame (MDF) is a cable rack used to interconnect and manage telecommunication wiring between itself and any number of intermediate distribution frames and cabling from the telephone network it supports. The MDF connects equipment inside a telecommunications facility to cables and carrier equipment. Every cable that supplies services to user telephones lines ends up at an MDF and is distributed through MDF to equipment within local networks.
**Item #11** Judicial Department: Elevator upgrades at the New Haven Superior Courthouse ($1,921,800 in new General Obligation bonds)

The funds will be used to award a construction contract, based on bids received in March 2013, for elevator mechanical systems upgrades at the New Haven Superior Courthouse. The Courthouse (and elevator systems) was built in 1974 and the elevator systems have been slowly deteriorating for over 10 years, requiring frequent fixes due to breakdowns and entrapment of occupants. This project will replace the existing system and bringing the elevators up to current building codes.

**Questions:**
1. What provisions has the Judicial Department made for handicapped people to access the upper floors of the building while the elevators are being renovated?
2. How long will it take to complete the elevator renovation?

**Item #12** Judicial Department: ADA and code compliance improvements at departmental facilities ($625,000 in new General Obligation bonds)

The funds will be used for various ADA code/safety compliance items at various facilities. This includes installing safety screens above handrails at the Bridgeport Juvenile Detention Center and the installation of roof anchors at various locations including the New London Juvenile Detention Courthouse to prevent the risk of falls on maintenance work on HVAC roof top units.

In addition, funds will be used to replace the failed gutter system on the east side 95 Washington Street Courthouse in Hartford. The gutter system failure has been causing discoloration of the exterior limestone and interior damage to the courthouse. The plaster ceiling in the courtrooms is falling off due to leaks caused by the failed gutters.

**Items #13, #18, #21, #33 & #37** Department of Social Services: Grants-in-aid to social service providers for infrastructure projects (a total of $8,014,119 in new General Obligation bonds)

The funds will be used for the following infrastructure projects at social service providers:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Question:** Will any of the projects receive funding from another source besides the state?

**Items #14 & # 15** Military Department: Upgrades to the New London Readiness Center and parking lot improvements at Stone's Ranch Military Reservation in East Lyme (a total of $2,800,000 in new General Obligation bonds)

These funds will be used for: (1) upgrades to the New London Readiness Center and (2) parking lot improvements at Stone Ranch Military Reservation in East Lyme. The Readiness center was constructed in 1961 and is used by the Connecticut Army National Guard’s 250th engineer multi Role Bridge Company to conduct administrative, training, equipment storage and operational tasks for 185 soldiers. The upgrades to the Readiness Center consist of mechanical, electrical, lighting, flooring and system upgrades. The parking lot improvements at Stone’s Ranch Military Reservation will include 100 spaces for cars, 58 spaces for trailers and 14 spaces for water jet boats. The Military Department plans on using $50,685 in Federal Funds for this project.

**Item #16** Department of Developmental Services: Improvements at departmental facilities ($1,772,000 in new General Obligation bonds)

The table below indicates the projects that will be done with this allocation:

<table>
<thead>
<tr>
<th>Project Title</th>
<th>Town(s)</th>
<th>Building Use/Current Consumer Census</th>
<th>Funding $</th>
<th>Justification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Improvements to Camp Quinebaug</td>
<td>Killingly</td>
<td>Camp (200+ consumers served)</td>
<td>212,000</td>
<td>Improvements will provide campers with a covered picnic area with shade from sun and protection from rain. This</td>
</tr>

<td>North Franklin, North Haven, Hamden, Middletown, &amp; Waterford</td>
<td>Consumer Occupied Residences (23 Consumers served at the group homes and, at Camp Harkness: 1,159 consumers occupy these cabins and camp is enjoyed by 28,519 persons annually)</td>
<td>200,000</td>
<td>The homes have two layers of roofing, worn shingles and active leaks needing constant attention. Beyond life expectancy.</td>
</tr>
</tbody>
</table>

**TOTAL**                                                                                         |                                           | **1,772,000**                                                                                     |            |                                                                                                                                                                                                 |

**Item # 17** Department of Housing: Loan to TAROB, Inc. for development of Riverview in Hartford ($1,812,159 in new General Obligation bonds)
The allocation will be used to provide a 10-year deferred loan at a 1% interest rate to TAROB, Inc. for a 10 story mixed-use, mixed-income high-rise building with 48 rental units and 20,000 sq. ft. of commercial space, at 3 Constitution Plaza in Hartford (the Residences at Riverview).

Funding to cover the total project cost of $17.8 million will come from: (1) this allocation of $1.8 million, (2) an $8.0 million bank loan, (3) $2.7 million from TAROB, Inc., (4) about $1 million from the City of Hartford, and (5) about $4.3 million in equity and financing from the Connecticut Regional Development Authority.

**Item # 19 Office of Policy and Management: Small Town Economic Assistance Program ($10,000,000 in new General Obligation bonds)**

The STEAP Program provides grants-in-aid of up to $500,000 per year to localities that are ineligible to receive Urban Action bonds. Examples of projects that can be funded through this program include: (1) economic development projects such as constructing or rehabilitating buildings, or repairing roads; (2) recreation and solid waste disposal projects; (3) social service-related projects, including day care centers, elderly centers, domestic violence and emergency homeless shelters, multi-purpose human resource centers, and food distribution facilities; (4) housing projects; and (5) pilot historic preservation and redevelopment programs that leverage private funds.

See Appendix C for a list of towns that are eligible for STEAP grants-in-aid.

**Item # 20 Office of Policy and Management: Grant-in-aid to Bridgeport for Black Rock Business District improvements ($500,000 in new General Obligation bonds)**

The funds will support a grant-in-aid to the City of Bridgeport for the Black Rock Business District Improvement Program. Specific projects under the program include streetscape enhancements (including tree planting), new tree pits, tree pruning, crosswalk striping, public art, lighting repair and storefront façade improvements. The project is anticipated to be completed in 2014.

*Background:* The Black Rock neighborhood is located along the coast in Bridgeport’s southwestern corner. It is bordered by the town of Fairfield to the west, Black Rock Harbor to the south, the South End neighborhood to the east and the West End/West Side neighborhood to the north. The area contains two historic districts: the Black Rock Gardens Historic District and the Black Rock Historic District.
**Item #22** Department of Children and Families: Grants-in-aid to nonprofit organizations for capital improvements ($3,000,000 in new General Obligation bonds)

These funds will be used to reimburse three nonprofits (Windham County 4-H Foundation, Inc., Soundview Family YMCA and Boys & Girls Club of Stamford) for projects as described below:

**Windham County 4-H Foundation, Inc.** ($500,000) – The project is an addition to a 60 year-old, two-story lodge, including safety and code compliance improvements. This will increase the lodge’s space by approximately 25% (up to an additional 6,000 sq. ft.).

1. The project includes:
   a. Kitchen renovation and kitchen equipment replacement;
   b. Replacement and upgrades to all plumbing and electrical systems;
   c. Installation of a fire suppression system with sprinklers on both levels, including digging a new well with an underground tank system to connect to the fire suppression system;
   d. Alteration of all four lodge entrances to make them handicapped accessible with accessible handicapped parking;
   e. Replacement of the roof and interior ceiling;
   f. Installation of new lighting;
   g. Repair of the second story’s fireplace;
   h. Replacement of the staff shower/locker rooms on the first story;
   i. Upgrades and enlargement of the handicapped bathrooms;
   j. Slightly increase in administrative space; and
   k. Creation of a science classroom and an art space on the first story for year-round use.

2. The safety and code compliance improvements that will be made are:
   a. Compliance with handicapped accessibility rules;
   b. Fire code/fire suppression systems;
   c. Achieving air quality/air exchange system codes;
   d. Entrance improvements per the local Health Department and local regulations stipulated by the Town of Pomfret, which require the redesign of the parking area to include an area for handicapped accessibility; and
   e. Installation of a generator in order to qualify as a shelter.

3. The original plans for this project were drawn up in 2005 in response to an earmarked bond authorization. The estimated cost at that time was $1.2 million. The State Bond Commission allocated the $0.5 million earmark in December 2011 but due to changes in building codes and safety regulations between 2005 and 2011, the plans had to be updated before the project could be bid out. The lowest bid received in July 2013 was $1.9 million, which was $0.7 million more than the original estimate. This $0.5 million allocation is to help cover the shortfall.

*Background:* The Windham County 4-H Foundation, Inc. is located at 326 Taft Pond Road in Pomfret Center. It has been open for more than 56 years. The camp encompasses 257 acres, 43 buildings, three ponds, a 36-stall horse barn, a horse program
classroom, hay room, storage space, three riding rings, walking trails, a nature center and a dormitory. It is in use year-round as a rental facility for weddings, business seminars, scouts and other community groups. It serves approximately 1,000 to 1,200 youth (ages 6 to 15) through summer camp programs and youth leadership events off-season. Three quarters of participants are from Windham and Tolland Counties and one quarter are from other Connecticut municipalities, New York and New England.

**Soundview Family** ($1,000,000) – The project is to construct a full-size gymnasium, an indoor playscape, three classrooms and related improvements, which primarily involve the addition of a parking lot with 75 parking spaces.

The Soundview Family YMCA previously received $1 million in state bond funds for construction of a 35,000 sq. ft. facility with two pools, fitness center, teen center, aerobic/dance studio, child care rooms and three locker rooms.

*Background:* Soundview Family YMCA is located at 628 East Main Street in Branford. It opened its doors in 2010 to expand the reach of the Central Connecticut Coast YMCA. It provides a wide variety of programs, including exercise, aquatics and summer camp, for people of all ages and interests. It serves approximately 4,000 children annually.

**Boys & Girls Club of Stamford** ($1,500,000) – The project is to construct: (1) 16,000 sq. ft. of new program space, (2) new recreational facilities, including an outdoor basketball court, an outdoor volleyball court, a small turf soccer field, splash pad, parking lot, games room for teens, library/computer area and program work space, and (3) a full-size gymnasium.

*Background:* The Boys & Girls Club of Stamford is located at 347 Stillwater Avenue. It was established in 1927 and is a dedicated youth facility that is open daily to provide after-school activities and youth development services. It offers programming in core areas of character and leadership development, education and career development, health and life skills, the Arts, and sports, fitness and recreation. It serves approximately 1,200 children (ages 6 to 18) annually.

**Item #23** Department of Administrative Services: Fire Training Schools – architect fee and hazardous soil remediation at five sites ($1,500,000 in new General Obligation bonds)

The funds will be used as follows:

- $0.3 million will be used at the Burville, Valley, Eastern, Cheshire, and potentially Middlesex fire schools for architect’s fee for: (1) additional surveying, borings wetlands flagging and (2) permitting due to the new DEEP requirements for storm water management.
• A total of $1.1 million will be used to remove soil contaminated with hazardous material as follows: (1) $0.5 million at Eastern Connecticut, (2) $0.2 million at Burville, (3) $0.1 million at Valley, and (4) $0.3 million at Waterbury Area. The estimates are based on Phase 3 environmental investigations. The actual cost could vary depending on what is found during the remediation process.

• $0.1 million for the DAS project management fee. Currently three DAS project managers spend part of their 35-hour work week on these projects to keep the fire training school projects on schedule. Based on an estimated total cost of $57.5 million for the remaining six fire training school projects, DCS fees will be around $2.0 million.

The table below the cost of the completed and remaining fire training school infrastructure renewal projects by fiscal year.

**Item #24** Department of Economic and Community Development: Grant-in-aid to Connecticut Landmarks for renovations at the Nathan Hale Homestead in Coventry ($500,000 in new General Obligation bonds)

These funds will support a grant-in-aid to Connecticut Landmarks for the renovation and adaptive reuse of two original, 18th century barns (the English Barn and the Dairy Barn) at the Nathan Hale Homestead in Coventry. The renovations will create
classrooms, a catering kitchen for use by local food producers, and event rental space, which will provide more revenue-generating facilities for the Homestead.

Connecticut Landmarks, formerly the Antiquarian & Landmarks Society, is a state-wide network of twelve significant historic properties that span three centuries of New England history. The Nathan Hale Homestead was built in 1776.

Questions:
1. What type of education programs will the barns be used for?
2. Will Connecticut Landmarks receive funding from other sources to support the project?

Item #25 Department of Economic and Community Development: Grant-in-aid to Hartford for commercial façade improvements in the Upper Albany Avenue commercial district ($500,000 in new General Obligation bonds)

These funds will provide a grant-in-aid to the City of Hartford, on behalf of the Upper Albany Main Street Program, Inc., to finance Phase I of a commercial façade improvement program for the Albany Avenue commercial district. The total project cost of $788,995 will be covered by this allocation of $500,000 and a $288,995 grant from the Hartford Foundation for Public Giving. Phase I includes a comprehensive
assessment of all commercial properties and vacant lots, as well as, an inventory and needs assessment of all commercial structures along Albany and Homestead Avenues and creation of design and development standards and guidelines for comprehensive façade improvements. The project should be completed by the end of 2014.

**Background:** The Upper Albany Main Street Program works to preserve, revitalize, and support the commercial district of Upper Albany by working with residents, merchants, and residents to create a neighborhood of choice. The Program’s comprehensive plan encourages a safer, pedestrian-friendly, commercial district with distinctive streetscape and façade improvements that will enhance the commercial district. The comprehensive plan for the district will include major redevelopment projects, conceptual streetscape designs, and parking solutions to advance the revitalization of Upper Albany.

**Question:** How many businesses will be part of the improvement program? Will any businesses in the area be negatively impacted by the program?

**Item #26** State Library: Grant-in-aid to East Hartford Public Library for renovations and the Raymond Library ($345,666 in new General Obligation bonds)

These funds will provide a supplemental grant-in-aid to the East Hartford Public Library for the HVAC and roof portions of its renovation project and Raymond Library. The estimated total cost of the replacement of the HVAC system is $725,000 while the estimated cost of the new roof is $275,000, resulting in a total estimated project cost of $1,000,000. The grant-in-aid of $345,666 represents 34.5% of the total cost.

The current heating and cooling units, located on the roof, are both inefficient and leaking. Raymond Library is more than 100 years old and is owned by the Raymond Library Company, from which the town leases the space. The replacement of the HVAC system and the new roof represent a portion of a total $8.2 million renovation to the library. In addition to renovating the existing building, a new 14,000-square-foot addition will be constructed. The 100-plus-year-old building has been expanded four different times, with the last major addition built in 1968.

**Item #27** Department of Energy and Environmental Protection: Remediation of Rochford Field in Hamden (Newhall Street Remediation Project) ($4,000,000 in new General Obligation bonds)

Funding from the State Superfund program will be used to remediate Rochford Field, a publicly-owned property that is part of the Newhall St. Neighborhood Remediation Project in Hamden. The funding will be used to construct an “engineered control”3

---

3 Engineered control is a method of managing environmental and health risks by placing a barrier between the contamination and the rest of the site, thus limiting exposure pathways.
remedy that prevents human exposure to, and leaching of, pollutants associated with waste fill material, historically disposed of at the field.

The remediation is part of a consent order that requires DEEP and the Town of Hamden to investigate and remediate Rochford Field. Hamden estimated the cost for: (1) construction of the remedy; (2) recreation improvements and construction of new amenities; and, (3) long-term operation and monitoring of the remedy to be approximately $7.6 million. Based on DEEP staff analysis, $4.0 million in state bond funds are needed to construct the engineered control remedy and re-establish the existing ball field and amenities. The Town of Hamden will need to seek the remaining $3.6 million from sources other than the Superfund Program for the balance of the project costs (i.e. the recreation improvements/construction of new amenities and the operation and maintenance expenses).

Background: The Newhall site is an approximate 18-block area in the southern part of Hamden that historically consisted of wetlands and low-lying areas that were filled with industrial and household wastes from the late 1800s through the mid-1900s. Industrial waste from Winchester Repeating Arms was dumped in the area. Many homes and other buildings were subsequently built on top of these wastes. In 2007, the Department of Environmental Protection (DEP) and Olin Corp., Winchester’s successor, agreed to replace fill from private residential property to a depth of 4 feet with clean soil; restore landscaping, patios, driveways and fencing; and cap public properties, including the former Hamden Middle School and two town parks.

Item #28 Department of Children and Families: Reimbursement to Wesleyan University for remediation costs at the former Long Lane School property in Middletown ($7,361,641 in new General Obligation bonds)

The funds will be used to reimburse Wesleyan University for the cost of environmental remediation on the former state-owned Long Lane School property in Middletown. The reimbursement is required under the terms of the agreement between the state and Wesleyan that was signed when the University purchased the 152 acre property for $15 million in 2000.

The pollution on the Long Lane School site is due to coal, which was the main source of fuel from 1870 through 1950. Before construction of the main boiler house (which served as the centralized heating source), many of the oldest buildings on site were heated with individual coal burners. As was common practice during that time, coal ash was used as grading and backfill around many of the school’s oldest buildings, beneath sidewalks and roads, and to backfill low spots in various places on the main campus. In addition, historical regrading and reworking activities (such as landscaping) also resulted in placement of ash in various locations throughout the site.
Item #29 Judicial Department: Security improvements at departmental facilities ($500,000 in new General Obligation bonds)

The funds will be used at various courthouses statewide to: (1) purchase new x-ray equipment and metal detector units and (2) add cameras, intercom systems, and upgrade locking and alarm systems. In addition, the New Haven and New London Juvenile Detention Courthouses will receive video system replacements and upgrades.

Item #30 State Department of Education: Grants-in-aid to school districts for technology wiring upgrades ($1,782,693 in new General Obligation bonds)

The table shows the eight districts that are receiving funding for the purpose of meeting the requirements of Common Core. Please see the write-up for Item #5 for further description of Common Core.

Item #31 Department of Energy and Environmental Protection: Grant-in-aid to East Lyme for property acquisition associated with Oswegatchie Hills Nature Preserve ($200,000 in new General Obligation bonds)

The funds will be used to purchase two parcels with a total of 75 acres that abut the Oswegatchie Hills Nature Preserve. The preserve is a 420 acre property that overlooks the Niantic River to the east. It was created through a public/private partnership and was officially opened in 2007. The ultimate goal is to expand The Preserve to 700 acres, through additional acquisitions. Management of The Preserve is performed via a partnership agreement with The Town of East Lyme.
Item #32 Department of Mental Health and Addiction Services: Grants-in-aid to nonprofit community mental health and addiction treatment service providers ($158,923 in new General Obligation bonds)

The funds will be used as follows:

a. Pathways, Inc. ($25,460) - Purchase of an emergency generator at Pathways’ Greenwich facility.

   Background: Pathways is a private, non-profit agency that provides services for adults who suffer from serious and prolonged mental illnesses such as schizophrenia, bipolar disorder, and major depression. Programs include safe, affordable housing with varying levels of support, case management, and rehabilitation services.

b. Perception Programs, Inc. ($98,396) - Roof and driveway replacement at the Church Street, Willimantic site and an emergency generator at the North Street, Willimantic site.

   Background: Perception Programs is a private, non-profit behavioral health agency that provides services to individuals with substance use or co-occurring mental health issues, individuals living with HIV/AIDS and those involved in the criminal justice system.

c. Recovery Network of Programs ($35,067) - Fire/security system replacement and new vinyl siding at the Bridgeport site.

   Background: Recovery Network of Programs, Inc. is a private, non-profit, social service agency that serves the Greater Bridgeport Community. It provides services to individuals and families in a recovery environment and offers medication-assisted treatment and Ryan White services⁴, residential, and outpatient services.

Items #34 & #36 Department of Economic and Community Development: Grant-in-aid to Stamford Center for the Arts for seating replacement and roof repairs at the Palace Theater (a total of $579,418 in new General Obligation bonds)

---

⁴ Ryan White was an American teenager with hemophilia. He was infected with HIV by a blood transfusion and was expelled from middle school because of his infection, although doctors said he posed no risk to other students. Four months after White’s death, Congress enacted The Ryan White Comprehensive AIDS Resources Emergency (CARE) Act, which is the United States’ largest federally funded program for people living with HIV/AIDS. The Ryan White Care Act funds programs to improve availability of care for low-income, uninsured and under-insured victims of AIDS and their families.
These funds will provide a grant-in-aid to Stamford Center for the Arts to finance seat replacement ($499,418) and roof repairs ($230,000) at the Palace Theater. The roof is currently leaking into the theatre area of the facility. The City of Stamford is contributing $75,000 for the architect and engineering costs associated with the roof repair. The Special Act language under which the bond funds were authorized does not require matching funds from the recipient.

Since 2005, the State Bond Commission has allocated $2.13 million to the Stamford Center for the Arts for renovation costs and capital purchases. Additionally, the Stamford Center for the Arts receives a General Fund appropriation under the “Performing Arts Centers” account in the Department of Economic and Community Development budget. The Center will receive $359,776 in both FY 14 and FY 15 for general operational support.

Background: The Stamford Center for the Arts is a not-for-profit which owns both the Palace Theater and the Rich Forum in Stamford. The 1,580 seat theater was originally built in 1927. For its time, it was a state-of-the-art facility that was known for its architectural beauty, acoustic excellence, perfect sight lines, and seating comfort. The building was restored in 1983 for live theatre, opera, dance, and concerts, plus art exhibitions in the Sackler Gallery.

Question: Is the Theater currently open for performances despite the leaking problems? How long will the repairs take to complete?

Item #35 Department of Children and Families: Grants-in-aid to nonprofit child care providers ($13,602 in new General Obligation bonds)

The funds will be used to reimburse Noank Group Home & Support Services, Inc. (NGHSS) to replace a generator at their Groton group home ($6,676) and to replace a generator at their Ledyard group home ($6,962).

Prior State Bond Commission allocations to NGHSS are as follows:
- 2000 for a roof fire exit ($4,520),
- 2004 for air conditioning in two group homes ($47,392) and
- 2008 for a sprinkler system ($23,292).

Background: NGHSS was founded in 1972. It serves approximately thirty children annually, usually adolescents who are residents on a long-term basis. It operates two therapeutic group homes for girls ages 14 to 18, in Groton and Ledyard. Besides clinical therapy interventions, NGHSS group homes provide life skills and mentoring services that assist girls in developing knowledge of community resources, social- and self-awareness, as well as relational skills.
NGHSS also operates a program for young men and women 18-years-of-age or older who have been in the care of the Department of Children and Families. This program, called the Community Housing Assistance Program or CHAP, provides case manager support services that enable program participants to live independently. Additionally, CHAP provides a continuum of care for residents who move on from group homes into independent living arrangements.

**Item #38** Department of Administrative Services: School construction grants-in-aid: Interest subsidy ($2,800,000 in new General Obligation bonds)

The state assists local school districts in financing the cost of elementary and secondary school construction projects by providing grants-in-aid for a portion of qualifying construction costs.

**Item #39** Department of Economic and Community Development: Manufacturing Assistance Act ($11,026,000 in new General Obligation bonds)

A. ClearEdge Power Corporation, Inc. ($1,503,000) – Grant-in-aid and loan to finance expansion and to equip a fuel cell manufacturing facility in South Windsor.

Of the total cost of $3.1 million, the state will provide: (1) a $1.4 million loan and (2) a $0.1 million grant-in-aid for staff training. The loan will be made at a 2% interest rate over 10 years with principal deferred for three years. The state will forgive $0.65 million if the company retains 17 existing jobs and create 80 new jobs within three years. The company will contribute $1.6 million to the cost of the expansion.

*Background:* ClearEdge Power, Inc. is a fuel cell manufacturer headquartered in Oregon that focuses on the stationary fuel cell and small business markets. It was founded in 2003 and sold and installed its first fuel cell unit in early 2008. Currently, its main product is the ClearEdge, which produces up to five kilowatts, with the heat by-product suitable for space and water heating. The unit is about the size of a large refrigerator and has a 20 year lifespan. It is marketed in places where solar energy may be less effective or where high energy prices and government incentives make the units more feasible.

In December 2012, ClearEdge reached an agreement with United Technologies Corp. to buy its fuel cell business, UTC Power. In February 2013, ClearEdge closed on its acquisition of UTC Power and the next month, the company reduced its workforce by 39%, with many layoffs coming at the former UTC unit.
B. Thompson International Speedway, LLC ($800,000) – Loan to finance facility upgrades.

The total cost of the project is $4.3 million, which will be financed through: (1) a $3.5 million bank loan and (2) a $0.8 million loan from the state at a 2% interest rate over 10 years. The state will forgive $0.2 million if the company creates 23 new jobs by 2015.

Background: Thompson International Speedway is a 5⁄8-mile paved oval racetrack that was built after the 1938 hurricane. It was the first asphalt-paved racing oval track in the United States and is now under the NASCAR Whelen All-American Series banner. Each year Thompson hosts "The World Series of Auto Racing", which frequently draws over 350 race cars in 16 separate divisions over three days.

C. Total Mortgage Services LLC ($3,500,000) – Loan to finance improvements and to equip a new headquarters facility in Milford.

The total cost of the project is $8.8 million, which will be financed through: (1) $5.3 million in company funds and (2) a $3.5 million loan 10-year from the state at a 0% interest rate for the first two years and 2% for the remaining eight years. The state will forgive $1.5 million if the company retains the existing 144 jobs and creates 140 new jobs within five years.

Background: Total Mortgage Services LLC is a mortgage lender headquartered in Milford that was founded in 1997. The company has grown from a regional to a national lender and, according to the company’s website, it is currently licensed in 29 states. In 2012, the company expanded its offices within Milford in an effort to accommodate its expanding workforce.

D. Various small projects, programs and administrative costs at DECD ($5,223,000).

**Item # 40 Office of Policy and Management: Local Capital Improvement Program (LoCIP) ($10,000,000 in new General Obligation bonds)**

LoCIP is an entitlement program for municipalities that provides General Obligation bond funds for eligible projects, as defined in statute. New funds are annually deposited into municipal accounts administered by the Office of Policy and Management (OPM) on March 1st. Towns may choose to: (1) expend the funds on smaller projects, or (2) accumulate the funds over a period of time for one large project.

Towns begin the process of accessing their LoCIP funds by submitting a proposal to OPM describing the proposed project and certifying that it is part of the town’s capital improvement plan. If OPM grants approval, the town may proceed to carry out the project. Because LoCIP is a reimbursement program, towns must first incur the expense for a project before reimbursement can be requested. Reimbursement may be made in one lump sum for a smaller project or in a series of payments as successive stages of a larger project are completed.

PA 13-184, the FY 14 and FY 15 Budget, establishes the following additional Local Capital Investment Program (LoCIP) purposes: (1) bikeways and greenways, (2) land acquisition, including for open space, and costs involved in making land available for public uses, (3) acquisition of technology related to implementation of SDE's Common Core State Standards, and (4) technology upgrades, including for improvements to expand public access to government information through e-portals and kiosks. The act also allows LoCIP funds to be used for the following purposes in FY 13 and FY 14: (1)
snow removal equipment, (2) capital expenditures made to improve public safety and (3) capital expenditures made to facilitate regional cooperation.

**Item # 41** Office of Policy and Management: Urban Action Program ($32,500,000 in new General Obligation bonds)

I. Department of Energy and Environmental Protection

A. Riverfront Recapture in Hartford ($1,500,000) – Grant-in-aid to finance design, permitting and related work for completion of: (1) the riverwalk between the downtown plaza and Charter Oak Landing and (2) a new riverfront entrance off of Van Dyke Avenue in the Coltsville area.

The total project cost is estimated at $25 million. The finished 3,800 foot-long riverwalk will complete a three-mile loop of riverwalks, on both banks of the river, between the Charter Oak and Founders bridges. The paved, lighted riverwalk will vary in width from 12 feet to 18 feet to accommodate various user groups and service vehicles. It will connect the downtown Hartford Riverfront and Charter Oak Landing and include a new entrance to the Riverfront that will reunite the Colt Armory complex with the river. The project involves very complicated engineering because there will be an opening in the dike wall for direct access to the river from the Coltsville neighborhood, and a gate structure that will close when the river floods.

Riverfront Recapture is a nonprofit agency that developed the park system over 25 years from a forgotten, debris-strewn strip to an extension of Hartford's downtown.

A map of the Riverwalk South Project
II. Department of Economic and Community Development

A. Georgetown Special Taxing District ($2,000,000) – Grant-in-aid to reconstruct the Norwalk River Flood Walls to support the mixed-use Georgetown Redevelopment Project on the former Gilbert & Bennett Wire Mill factory site in Redding.

These funds will support a grant-in-aid to the Georgetown Special Taxing District to reconstruct the Norwalk River Flood Walls that will place the Georgetown Redevelopment Project outside of the 100-year floodplain. The flood wall project will also provide a protective measure that will keep contaminated soils from eroding downstream during a 100-year flood. The Federal Emergency Management Agency (FEMA) provided the project with a Conditional Letter of MAP Revision\(^5\) which shows FEMA’s concurrence that if a proposed mixed-use Georgetown Redevelopment Project is built as planned, that it will be compliant with the regulations of the National Flood Insurance Program. The Department of Energy and Environmental Protection also issued a Flood Management Certification permit on 5/7/13 for the project which included the construction and modification to the river walls.

**Background:** The Georgetown Special Taxing District is overseeing Georgetown Redevelopment Project, which will be located at the former Gilbert & Bennett wire mill site. The project is an approximately 150,000 sq. ft. commercial development with 416 residential units, a 20,000 sq. ft. Community Theater, 135,000 sq. ft. of retail space, and a commuter rail station. The first phase will be leveraged with approximately $60 million in private investment for residential development that includes up to 100 housing units. No additional state bonds are anticipated to be requested for this project.

B. Wadsworth Museum of Art in Hartford ($5,000,000) – Grant-in-aid for Phase II renovations, restoration and energy conservation improvements to approximately 70,000 sq. ft. of space containing 54 galleries and 20 public spaces across all five of the museum’s buildings. Phase II will result in the addition of 8,000 sq. ft. of reclaimed gallery space, a 14% increase, and the complete reinstallation of the museum’s permanent collection. The current allocation will finance the installation of: (1) ADA-compliant restrooms, (2) an ADA compliant elevator, and (3) a proprietary heating and cooling plant.

\(^5\) A Letter of Map Revision (LOMR) is FEMA’s modification to an effective Flood Insurance Rate Map (FIRM), or Flood Boundary and Floodway Map (FBFM), or both. LOMRs are generally based on the implementation of physical measures that affect the hydrologic or hydraulic characteristics of a flooding source and thus result in the modification of the existing regulatory floodway, the effective Base Flood Elevations (BFEs), or the Special Flood Hazard Area (SFHA). The LOMR officially revises the Flood Insurance Rate Map (FIRM) or Flood Boundary and Floodway Map (FBFM), and sometimes the Flood Insurance Study (FIS) report, and when appropriate, includes a description of the modifications. The LOMR is generally accompanied by an annotated copy of the affected portions of the FIRM, FBFM, or FIS report.
The total estimated cost of Phase II is $18.3 million. A portion of the cost will be supported by: (1) prior State Bond Commission allocations of $10.0 million ($2.0 million in June 2012, $3.0 million in January 2013 and $5.0 million from this allocation), (2) $7.3 million from the museum, and $1.0 million in federal funding.

The State Bond Commission approved a total of $35.0 million in Urban Act grants between 1999 and 2013 to support Phases I and II. The total cost of Phase I was approximately $16.0 million.

C. Preston ($5,000,000) – Grant-in-aid for environmental remediation and demolition of buildings at the former Norwich Hospital property.

D. This funding will provide a grant-in-aid to the Town of Preston to support the environmental remediation and demolition of buildings on the former Norwich Hospital site. The entire project area includes nearly 390 acres and 40 abandoned and deteriorated buildings. The site has been rezoned and possible redevelopment options include retail and office/commercial use; light industrial use; a possible hotel/conference center; residential uses; and open space/recreational for passive activities. Preston currently has an advisory firm overseeing the RFP process and is in discussion with several developers.

The total anticipated cost to finish the project is $8.5 million. The state provided $4.1 million for this project prior to this allocation (see table below). The project may also receive federal funding from the U.S. Environmental Protection Agency and the U.S. Economic Development Agency.

Question: What is the anticipated timeframe for completion of the project?
III. Department of Housing

A. Shoreline Resilience Fund ($2,000,000) - Grant-in-aid to establish a fund to provide low-interest loans to residents who are subject to coastal flooding and would like to elevate their homes and flood-proof their businesses.

The fund may only be used for elevating homes and flood-proofing businesses, or elevating businesses as feasible and required by the National Flood Insurance Program (NFIP). To be eligible for the loan, Connecticut homeowners and business owners’ structures must be subject to coastal flooding and located in either Zone VE or Coastal Zone AE as defined by the Federal Emergency Management Agency (FEMA) and NFIP. The Shoreline Resiliency Fund can be used to elevate or flood-proof secondary and primary single family homes, 1-4 unit owner-occupied rentals and businesses, and there is no income cap for applicants. If a nonresidential building is required to be elevated, it must meet the same standards as for elevations of residential buildings. In cases where elevation of a nonresidential building is either not feasible or not required, flood-proofing measures may be permitted.

Flood-proofing is any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents. Flood-proofing includes, but is not limited to, ensuring:

- Walls are watertight (substantially impermeable to the passage of water);
- Structural components can resist hydrostatic and hydrodynamic loads and effects of buoyancy; and
- Utilities are protected from flood damage.

IV. Department of Public Health

A. Grant-in-aid to Milford Hospital ($2,000,000) – Grant-in-aid to purchase clinical and patient care equipment and information technology equipment upgrades.

These funds will be used to provide a grant-in-aid to Milford Hospital for the purchase of the following:

V. Department of Social Services

A. The Center for Women and Families of Eastern Fairfield County, Inc. in Bridgeport ($1,200,000) - Grant-in-aid for renovations and improvements to its building in Bridgeport to establish a family justice center.

*Background:* The center provides domestic violence and rape crisis services for women and families, including: 1) advocacy and crisis services, 2) community education, 3) court advocacy/legal services, 4) investigation/forensic services, and 5) runs the program Women of C.H.A.N.G.E. which prepares incarcerated women for life after prison.

B. Continuum of Care Inc. ($7,500,000) – Grant-in-aid for construction of a new 30,000 sq. ft. administration building in New Haven.

*Background:* Continuum of Care, Inc. is a not-for-profit organization operating licensed group homes, supported living programs, intensive 24-hour supported living programs, community-based crisis and respite services, and residential case management services. The organization provides services to more than 1,200 individuals annually in various locations throughout the state. It manages 30 facilities which serve approximately 250 clients and provides case management for another 100 clients who reside in privately owned properties.

VI. Department of Education

A. School Security Infrastructure Competitive Grant Program ($6,300,000) – Please see Appendix D for a list of grants-in-aid for school security infrastructure at
existing schools. Municipalities requested a total of $21 million in state funding (20-80% of eligible expenses) for improvements. The state previously provided a total of $15 million in bond funding (including a $10 million allocation in September 2013) and the current $6.3 million allocation will cover the remainder of the request. Appendix D indicates the state share and the amount of the local match. The state grants-in-aid are subject to downward revision if unallowable expenses are discovered.

Background: Eligible local and regional boards of education were ranked in descending order according to town wealth. The wealthiest town will be eligible for 20% total reimbursement of the eligible project and the poorest town is eligible for 80% reimbursement.

The program allows local and regional boards of education to be reimbursed for eligible expenses that are incurred on or after January 1, 2013. Eligible expenses include, but are not limited to: installation of surveillance cameras, penetration resistant vestibules, ballistic glass, solid core doors, double access doors, computer controlled electronic locks, entry door buzzer systems, scan card systems, panic alarms, or systems and; the training of school personnel in the operation and maintenance of the security infrastructure of school buildings. In addition, the purchase of portable entrance security devices, including but not limited to metal detector wands and screening machines and related training. Expenses related to School Resource Officers are ineligible.

**Item #42 Approval of the State Treasurer's Certificate of State Indebtedness**

This resolution satisfies statutory requirements for approval of documents related to State Bond Commission meetings.
