Analysis of New Authorizations for the General Bonding Subcommittee

Addendum

March 17, 2015
1:00 PM
OFA STAFF

Alan Calandro, Director

Christine Ashburn, Section Chief

Sarah Bourne, Principal Analyst
Elementary Education, Office of Higher Education, Town Education Grants

Don Chaffee, Principal Analyst
Legislative Agencies, Budget Information System, State Personnel

Rachel Della Pietra, Principal Analyst
Children and Families, Public Health, Medical Examiner

Christina Gellman, Principal Analyst
Banking, Dept. of Developmental Services, Teachers’ Retirement, Dept. of Rehabilitation Services

Alan Shepard, Principal Analyst
Board of Regents for Higher Education, UConn, Consumer Protection

Michael Murphy, Section Chief

Evelyn Arnold, Associate Analyst
Economic Development, Housing, Culture and Tourism, Results Based Accountability

Anne Bordieri, Associate Analyst
Transportation Fund, Motor Vehicles, Dept. of Transportation, Military, Veterans’ Affairs, Soldiers, Sailors & Marines’

William Lederman, Principal Analyst
Budget Information System, Income Tax Modeling

Linda Miller, Principal Analyst
Attorney General, Treasurer, Debt Service, Bonding

Chris Wetzel, Principal Analyst
Dept. of Labor, Tax Policy & Revenue Analysis, Dept. of Revenue Services, Spending Cap

Chris Perillo, Section Chief

Bill Craven, Analyst I
Dept. of Administrative Services, State Personnel, Statewide Issues, Energy Funds, Consumer Counsel, Construction Services

Dan Dilworth, Associate Analyst
Office of Policy & Mgmt., Grants to Towns (PILOTS, Pequot), Municipal Funds, Federal Funds

Grant Gager, Associate Analyst
Emergency Services & Public Protection, Office of Government Accountability, Governor, Lt. Governor, Secretary of the State, Comm. on Human Rights & Opportunities

Marcy Ritsick, Associate Analyst
Environment, Agriculture, Agriculture Experiment Station, Council on Environmental Quality

Rob Wysock, Section Chief

Neil Ayers, Principal Analyst
Dept. of Social Services, UConn Health Center, Office of Health Care Advocate, Dept. of Insurance

Jonathan Palmer, Associate Analyst
Corrections, Budget Information System

Phoenix Ronan, Associate Analyst
Criminal Justice, Judicial, Public Defender, Probate

Emily Shepard, Principal Analyst
Dept. of Social Services, Mental Health and Addiction Services, Psychiatric Security Review Board, Office of Early Childhood

Holly Williams, Associate Analyst
State Comptroller, Dept. of Social Services (Health Care), State Employee Fringe Benefits, Workers’ Compensation

Administrative Staff

Laurie L. Wysock, Sr. Executive Secretary
Theresa Kelly, Senior Legislative Secretary
Lisa Kiro, Staff Assistant/Fiscal Note Coordinator

Legislative Office Building, Room 5200, Hartford, CT 06106
Phone: (860) 240-0200

**Sheff Settlement Costs** (no unallocated balance; $20,000,000 in FY 16 and $5,750,000 million in FY 17 proposed by the Governor) - In order for the state to meet the terms of the Sheff Stipulation (Phase III) as extended, it is necessary for the state to be able to offer seats to a greater number of Hartford students each year. For the current school year (2014-2015) the October 1, 2014, enrollment for Sheff Magnets is 18,474. The proposed new funding will be used for both new and existing schools. The table below provides a detailed breakout of proposed bond funding by school.

**For a Long Island Sound Stewardship and resiliency program for protection of coastal marshes and other natural buffer areas and for grants-in-aid to increase the resilience of wastewater treatment facilities** (no unallocated balance; $20,000,000 in FY 16 proposed by the Governor)

The funds will be used to help municipalities undertake actions that would increase the resiliency of critical infrastructure such as waste water treatment plants and reduce the amount of flooding, erosion, and sewer overflows that occur in major rain events with the use of things such as permeable surfaces, vegetative buffers natural shoreline enhancements.

The new program will probably be structured to complement other sources of funding, and to require some kind of match from municipalities. DEEP anticipates giving priority to projects such as: (1) wastewater treatment plant power source flood security and plant flood proofing, (2) pump station integrity and (3) enhanced protection from storm surge or waves, which could include natural shoreline enhancements to reduce storm surge and wave impact.

**Grants-in-aid to municipalities to encourage low impact design of green municipal infrastructure to reduce non-point source pollution** (no unallocated balance; $20,000,000 in FY 16 proposed by the Governor)

The purpose of this funding is similar to the Long Island Sound Stewardship and resiliency program described above.

For this program, DEEP anticipates giving priority to projects that: (1) reduce run-off at municipal facilities in flood prone and wash areas, especially in combined sewer systems, (2) cover the incremental cost difference for repaving projects using permeable
pavement, (3) reduce run-off by 50% or more over the current level and (4) reduce erosion and sedimentation along rivers, which could include replanting vegetative buffers on rivers and streambeds on private as well as public waterways.

Background: Explanation of non-point source pollution - Many activities associated with various land uses within Connecticut have the potential to contribute pollution to ground and surface water resources. Water pollution that is not concentrated within a drainage system, or discharged from a point, such as a pipe, is called nonpoint source pollution. Potential sources of Nonpoint Source Pollution can include agriculture, waste from domestic animals and wildlife, malfunctioning septic systems, runoff from impervious surfaces and managed turf grass, soil erosion, atmospheric deposition, marinas and boating activity, and others. Pollutant levels, or loadings, from nonpoint sources can be increased by weather conditions which cause storm water runoff or snowmelt. If pollutant concentrations from these nonpoint sources are high enough, uses of those surface or ground waters for public water supplies, recreation, or aquatic life may become impaired.
