FISCAL IMPACT STATEMENT - BILL NUMBER SB 2018

STATE IMPACT See below
MUNICIPAL IMPACT None
STATE AGENCY(S) Various Agencies

	Current FY	1992-93	1993-94
State Cost (savings)	:	: 315,300	:
St Revenue (loss)	:	:15,406,978	:
Net St Revenue (savings)	:	:15,091,678	:
Municipal Impact	:	:	:

EXPLANATION OF ESTIMATES:

The bill will result in a net revenue gain of \$15.1 million from increases in various licenses, permits and fees (\$15,406,978) and miscellaneous revenue enhancements (\$248,000) minus costs associated with implementation (\$315,300).

To the extent that budgeted reductions in agency personnel due to early retirement, layoffs and attrition have decreased licensing and regulatory staffs in the Departments affected by this act, there could be a negative impact on the revenue generated.

It should be noted that collection of revenues reflected in this fiscal note from fees attributable to the Department of Health Services (DOHS) will be contingent upon the the agency being able to dedicate sufficient staff resources to licensure and collection activities in FY 1992-93. The extent to which this can be accomplished is uncertain as the DOHS has experienced a significant reduction in its workforce in

recent months due to budgeted personnel reductions and early retirements. (Twenty four (24) out of the fifty nine (59) individuals taking early retirement worked in the DOHS's primary licensure divisions.) It is uncertain at this time whether the agency will lose more positions due to layoffs.

It is anticipated that the agency would require a total of \$255,300 which includes one (1) Administrative Fiscal Officer (at approximately \$32,000) to monitor fee collection. Achieving revenues related to asbestos activities would require 4 staff; achieving revenues associated with licensure of youth camps would require 4.3 full-time equivalent positions. The total cost associated with these staff, including related other expenses, is \$223,300. It should be noted that no funding has been included within SA 92-13 (the Appropriations Act) for these additional positions.

Based upon a review of the Department of Consumer Protection's actual budget for FY 1991-92 and the proposed budget outlined in SA 92-13 (the Appropriations Act) for FY 1992-93, three positions and \$60,000 will be needed to register weighing devices.

The 1991-92 budget for the Department of Consumer Protection included three positions and \$60,000 to cover the administrative costs to collect the registration fees for weighing devices. Since the legislation to implement the registration program was not approved by the General Assembly the appropriated funds were anticipated to lapse and the positions not established.

Special Act 92-13 requires DCP to eliminate a total of 29 positions to effect a savings of \$963,606 in Personal Services for FY 1992-93. Consequently, it is anticipated that the responsibilities associated with this registration program cannot be handled within DCP's normal budgetary resources.

Theoretically, a revenue loss should result from the elimination of various specified general fees in the Secretary of State's Office. In this case, however, since the current fees are restrictive, a revenue loss is not anticipated as the agency can now charge a fee that covers the cost of the service that is provided. Consequently, a revenue gain could result. The extent of the potential gain beyond that which is specified is indeterminate.

Because of the limited availability of data on several fees in the Office of Secretary of State, an accurate estimate of revenue gained from increases is not possible. Therefore, there could be an additional revenue increase the amount of which cannot be determined.

It should be noted that the agency budgets do not include fringe benefit costs as they are provided in separate accounts administered by the Comptroller. As the fringe benefit costs associated with this bill represent a very small amount relative to the total appropriated to the Comptroller for fringe benefits for all state employees, they have not been reflected in this estimate.
