Subject: Redistricting Map Proposal- Majority-Minority District
Date: Friday, December 17, 2021 6:44:55 PM

It is now possible to draw a majority-minority district in CT, which I urge the commission to do. In my draft map, District 3 has a majority-minority voting age population. Additionally, District 1 has a 43.3% minority voting age population and is likely to become majority-minority within the decade given current demographic trends.
